

Centek Capital Group Alert

RATES ARE BACK DOWN TO 40 YEAR LOWS!

Centek Capital Group

Infoletter

June 2011

Even if you refinanced within the last year, please call so that we can analyze your current loan, in the likely event that we have an opportunity to reduce your rate. In addition, now is an excellent time to reduce the amortization term of your current vehicle. Why not change your 30 year into a 20 year, your 20 year into a 15 year, or your 15 year into a 10? And if you are going to be moving within the next 5 to 10 years, one of our highly aggressive Interest Only programs could be an optimal cash management tool for you. We wish you and yours all the best this summer.

Sincerely,

Gloria, Curtis,
Nathan, Ted, Bashar
and all of us
at CenTek.
